## Canadian Environmental Quality Guidelines

Update 3.1  
August 2003

---

**REMOVE**

**INSERT**

### Chapter 4 : Canadian Water Quality Guidelines for the Protection of Aquatic Life

“Inorganic Fluorides”

**ERRATA:** The value for the Canadian Water Quality Guidelines for the Protection of Aquatic Life for Inorganic Fluorides is 0.12 milligrams per Litre (0.12 mg/L). The value is correctly stated in the factsheet, but is incorrectly stated as 0.12 microgram/L in the tables "Summary of Existing Canadian Environmental Quality Guidelines" and "Summary Table" (Chapter 4).

“Mercury: Inorganic Mercury and Methyl mercury”

Pages 1 - 7

"Nitrate Ion"

Pages 1 – 7

Summary of Existing Canadian Environmental Quality Guidelines		
The Master Summary Table of the Canadian Environmental Quality Guidelines has been removed. There was insufficient guidance in the Master Summary Table to prevent potential misapplication of guidelines when reference was made only to that Table. Users are advised to consult the chapter and/or factsheet contained in the Canadian Environmental Quality Guidelines binder for specific information and implementation guidance pertaining to each environmental quality guideline.	Pages 1 – 12	
Chapter 2 : Community Water Supplies
